

Terry Sullivan | Service Manager

Terry Sullivan joined Rankin Biomedical as a Biomedical Technician in 2007 and was our top performer in quality and production of refurbished histology and cytology equipment. Before coming to Rankin, Terry had worked for more than 20 years in mechanical maintenance and management of machinery, heavy equipment, and automotive. He is a Certified Master Automotive Technician and has an Automotive Mechanics Certificate from MoTech. For 14 years Terry has been collaborating with the finest third-party and OEM service technicians throughout the country. In the service field, he is considered to be a master of troubleshooting, repairing and refurbishing histology and cytology lab equipment.

MoTech Automotive, Certificate of Automotive Mechanics
